GREEN PRODUCTS WITH WATER SAVING TECHNOLOGY

GREEN PRODUCTS FOR A GREENER PLANET

We, at CERA, stand for a greener planet. Which is why, we offer ecological hygienic solutions. Simply put, we offer products that save water and in turn, protect the planet. With a wide range of water-saving products with futuristic eco-designs and advanced technology, we strive for a better future. We call this "an idea for a better society". Let's have a look on how we do this:

A range of water-efficient EWCs

In today's time, it is important to make EWCs that saves precious water. More than 90% of CERA EWCs are designed to save 35% water in each usage. This is possible due to special design of inner bowl that needs only 3.9 litres flushing water instead of regular 6 litres and yet offer effective cleaning.

Sensor urinals

Here's a smart way to a cleaner and healthier bathroom – the sensor urinals. Apart from the aesthetic design and stylish looks, these innovative products also offer 'sense presence technology', which initiates automatic flush mechanism. It flushes just 0.75 litres of water in every use, which includes pre and post use flushing.

Sanitaryware Product Features

The bathroom is one of the most important rooms in your home. So, the design of the fitting matters, how much water it uses and how well it flushes. A good EWC conserves water and generates enough power to clean the bowl in a single flush.

Glazed Traps in EWCs

CERA EWC's are fully glazed which includes inside of the trap to ensure superior hygiene and total waste removal.

Rimless EWCs

A rimless EWC uses direct flush technique that pushes water into the bowl horizontally along the sides. There are no hidden crevices for waste to enter and get stuck. It produces a cleaner flush every time.

EWCs with Siphonic flushing with jets

A siphonic jet toilet features an S-shaped trap way, with one end connected into the inlet of the bowl and the other end connected with the bowl underneath the drain pipe. This trap way design ensures powerful flushing & total waste removal.

EWCs with nano-glaze

The nano glaze is new generation anti-bacterial technology which seals microscopic pores of ceramic surface so that dirt will not settle on it offering water repellent, stain resistant & scratch resistant ceramic surface ensuring utmost hygiene.

EWCs with duroplast seat cover

Duroplast seat covers are fast replacing the conventional seat covers. They give a flawless look due to their ceramic like finish and are also scratch resistant & durable.

With advancing technology, toilet seat covers now come with specific add-on like click and remove technique that allows easy removal of seat cover for thorough cleaning.

Thin rim tabletop wash basins

CERA's thin rim wash basins are a sight to behold with their modern sleek lines and finesse of shape-without sacrificing any of their functionality or durability.

These basins have easy to clean 5 mm thin rim improving overall aesthetics.

GREEN PRODUCTS WITH WATER SAVING TECHNOLOGY

GREEN PRODUCTS FOR A GREENER PLANET

We, at CERA, stand for a greener planet. Which is why, we offer ecological hygienic solutions. Simply put, we offer products that save water and in turn, protect the planet. With a wide range of water-saving products with futuristic eco-designs and advanced technology, we strive for a better future. We call this "an idea for a better society". Let's have a look on how we do this:

Futuristic sensor taps

CERA offers range of sensor taps which due to automatic on-off system save upto 70% water in every usage. What's more, your safety has always been a priority to us. And we have designed CERA's range of sensor taps with zero contact, ensuring 100% safety.

Intelligent Eco-flow showers with turbo-air technology

Crafted with style, our Eco-flow showers are products of inspiring technology. They let you indulge in the luxury of an invigorating shower while saving water as well.

With Turbo-Air technology, our Eco-flow showers reduce water usage and encourage low scale buildup. By mixing air in the flow, our showers provide an oxy-rich, full flow experience while dispensing nearly 50% lesser water than conventional showers. Our showers regulate the flow according to water pressure, giving user a uniform and soft showering experience. These showers save big on water, electricity and energy.

Faucet Product Features

When it comes to doing up a bathroom, the fittings play an important role too. Apart from the utility of the faucets, they also increase the style quotient of a bathroom. And with the ever-evolving technology, they also allow us to save on water.

European Cartridges

A cartridge is a main functional part of faucet. It mixes hot & cold water to user's comfort level, It also serves as regulator of water quantity.

Cera's cartridges are tested for 3 lakhs cycles & are suitable for 0.5-5 bar water pressure conditions.

Aerators

Taking forward the water saving concept, faucets manufactured at Cera are awarded a number of certifications such as WEP-I, GRIHA and GreenPro.

All the CERA faucets are fitted with aerator, which mixes air with water & gives splash-free gentle flow. Also we offer different water saving aerators which can save more than 50% water in every usage.

Evershine product finish & high corrosion resistance

The chrome plating, the surface of any faucets adds an impeccable finish to the product.

CERA faucets have a 11-13 microns thick nickle layer and 0.3-0.5 microns thick chrome plating which is much above the industry standards that result in better finish and durability. Also they are tested for 200 hours of neutral salt spray test ensuring corrosion free long life.

Faucet Product Features

Food grade rubber parts & lubricants

Quality Nylon and rubber parts - Food grade rubber parts - EPDM / Nitrile quality.

Special food grade silicon lubricants - Unaffected by petroleum products / Clean odourless water.

Being classified as a food-grade lubricant means that the grease is not toxic when consumed and it doesn't have toxic additives like lead, lithium and zinc.

Warranty

CERA products have been manufactured under the highest standards of quality and workmanship. CERA are backed by prompt and efficient after-sales service.
